About Us

Connecting Nigerian Businesses to Global Markets.

Kennykay Logistics is a premier Nigeria-based freight forwarding and integrated logistics provider engineered for businesses that cannot afford supply chain delays. Operating across major Nigerian seaports, international airports, and inland corridors, we deliver dependable coordination and tailored execution for every cargo movement.

From complex import/export documentation to rapid customs clearance and final-mile haulage, we eliminate bottlenecks through proactive tracking, strict regulatory compliance, and transparent communication—moving your cargo from origin to destination with precision at speed.

Vision, Mission

The purpose behind our work

Our Vision

To be West Africa’s most trusted logistics partner —recognised for operational speed, regulatory integrity, and seamless supply chain execution.

Our Mission

To simplify complex cargo movement by delivering reliable, transparent, and cost-efficient freight forwarding solutions that keep our clients' operations moving without interruption.

Core Values

What we deliver?

- Precision: Zero-error documentation and meticulous route planning before cargo moves.
- Speed: Proactive port clearance and agile dispatch to minimise demurrage and storage costs.
- Integrity: Full transparency in billing, regulatory compliance, and cargo accountability.
- Reliability: Consistent, on-schedule delivery backed by real-time shipment visibility.

Service Portfolio Overview

We manage every link in your logistics chain under one roof, giving you single-point accountability from the port of loading to the final warehouse delivery.

- **1. Air & Ocean Freight**: Time-critical air cargo and FCL/LCL sea freight consolidation across major international trade routes.
- **2. Customs Clearance:** Fast-track regulatory processing, tariff classification, and port release across Nigerian seaports and airports.
- **3**. **Inland Haulage & Warehousing**: Secure nationwide trucking, container transfers, and short- or long-term storage facilities.
- **4**. **Project & Special Cargo**: Heavy-lift, oversized equipment, and specialised route engineering for industrial and energy operations.

Air & Ocean Freight

Global Reach. Seamless Multimodal Execution.

- Whether moving urgent, high-value components by air or high-volume commercial inventory by sea, our international agent network ensures competitive carrier rates, priority space allocation, and accurate documentation.

Air Freight Solutions:

- Express and consolidated import/export air cargo
- Airport-to-airport and door-to-door air delivery
- Pre-alert documentation and rapid airport tarmac clearance

Ocean Freight Solutions:

- Full Container Load (FCL) and Less-than-Container Load (LCL)
- Carrier booking, Bill of Lading verification, and container tracking
- Port handling coordination and demurrage prevention management

Customs Clearance & Inland Delivery

Zero-Bottleneck Clearance & Nationwide Haulage.

Port delays erode profit margins. Our customs brokerage and inland transport teams work in lockstep to clear regulatory hurdles swiftly and dispatch your goods directly to your facility anywhere in Nigeria.

Customs Brokerage & Compliance:

- Pre-arrival document vetting (Form M, PAAR, SONCAP, NAFDAC, and duty assessments)
- Direct liaison with Nigerian Customs Service (NCS) and port terminal operators
- Transparent duty payment processing with zero hidden charges

Inland Haulage & Final-Mile Delivery:

- Dedicated flatbed, box-body, and container-chassis fleet
- GPS-monitored transit across Lagos, Abuja, Port Harcourt, Kano, and regional hubs
- Safe offloading and proof-of-delivery (POD) confirmation

Project Logistics & Special Cargo

Engineered Solutions for Heavy & Oversized Cargo.

Non-standard cargo requires meticulous engineering before the first mile begins. We design custom transport plans for heavy machinery, industrial plant components, and time-sensitive infrastructure shipments.

- **01 | Route Survey & Feasibility**: Physical route audits, bridge/overhead clearance checks, and specialised equipment selection.
- **02 | Regulatory Permits & Escorts**: Securing special road permits, crane rigging coordination, and security escorts where required.
- **03 | Site-to-Site Execution**: End-to-end supervision from vessel hook-off to final foundation placement at your project site.

Industries We Support

Sector	Typical Cargo	Key Logistics Challenges	Kennykay Solution
Energy, Oil & Gas	Drilling tools, valves, pipes, heavy machinery	Strict safety compliance & remote site delivery	Project cargo engineering, heavy-lift haulage & priority clearance
Manufacturing & Industrial	Raw materials, CKD parts, factory machinery	Production downtime from port/customs delays	Pre-arrival PAAR processing & scheduled just-in-time delivery
FMCG & Retail	Packaged goods, electronics, consumer inventory	High volume turnover & storage/distribution speed	FCL/LCL consolidation, warehousing & multi-drop distribution
Agriculture & Agro-Export	Cocoa, cashew, sesame, processed agro-commodities	Export documentation & vessel cutoff deadlines	Export stuffing, phytosanitary coordination & port gate-in
Construction & Infrastructure	Steel structures, cranes, modular building units	Oversized dimensions & site access constraints	Low-bed trailer dispatch, route surveys & crane coordination

Our Operating Advantage

(Why Should you choose us?)

Engineered Solutions for Heavy & Oversized Cargo.

- **1. Vetted Global Partner Network:** Strategic alliances with reliable shipping lines, airlines, and international freight agents across Asia, Europe, North America, and Africa.
- **2. Proactive Demurrage Shield**: We initiate documentation checks before vessel arrival so clearance begins immediately upon discharge.
- **3. Dedicated Account Desk:** One dedicated logistics coordinator managing your shipment from booking to final Proof of Delivery.
- **4. Real-Time Milestone Reporting**: Automated status updates at every critical checkpoint—departure, arrival, customs assessment, release, and transit.
